## 1. About the Global Biofuels Alliance

The Global Biofuels Alliance (GBA) was launched at the G20 Leaders' Summit in New Delhi on 9 September 2023 under India's G20 Presidency. In under three years, the GBA has grown from 19 founding countries and 12 international organisations to 34 member countries and 14 international organisations, making it one of the fastest-growing multilateral energy platforms globally. The GBA's mission is to accelerate the global adoption of sustainable biofuels by promoting policy excellence, building technical capacity, advancing international standards and global trade, and facilitating investment across the biofuels value chain.

Headquartered in New Delhi, India, the Secretariat works under the guidance of the Alliance Board and in collaboration with the Executive Committee and the Industry Advisory Board. As a dynamic and rapidly scaling international organisation, the GBA is committed to fostering an inclusive, high-performance environment where the world's leading experts collaborate to solve complex climate and energy challenges.

### Core Values of the GBA Secretariat:

- **Excellence & Innovation:** We strive for the highest standards in research, policy, and operations, constantly seeking innovative solutions to global energy challenges.
- **Collaboration & Consensus:** We operate as a neutral, unifying platform, building consensus among diverse sovereign states, industry leaders, and multilateral institutions.
- **Integrity & Transparency:** We uphold strict fiduciary, ethical, and operational standards, ensuring accountability to our member nations and stakeholders.
- **Diversity & Inclusion:** We believe that solving global challenges requires diverse perspectives. We are committed to geographic, gender, and cultural representation at all levels of our organisation.

## 2. Directorate Context and Position Purpose

Background: The Technical Directorate is critical to achieving GBA's multi-year strategic objectives. It is responsible for driving outputs that guide member states in their biofuel transition.

Purpose of the Role: The Project Development & Impact Assessment Specialist will serve a critical function within the Technical Directorate, ensuring execution excellence and driving forward the Alliance's overarching mandate.

### 3. Detailed Key Responsibilities

- Strategic Leadership & Planning
- Operational Execution & Delivery
- Stakeholder Engagement & Coordination
- Governance & Administrative Duties

### Required Technical Qualifications and Background

#### • Education

Advanced university degree (Master's degree or equivalent) in energy, environmental science, sustainable development, public policy, engineering, economics, MBA or a closely related field. A first-level university degree in a relevant discipline combined with two additional years of qualifying professional experience may be accepted in lieu of an advanced degree. A certificate in project management is desirable.

#### • Professional Experience

A minimum of six (6) years of progressively responsible professional experience in project management, programme coordination, or technical research in the energy, biofuels, renewable energy, climate, or sustainable development sectors.

Experience working with or within an international organisation, multilateral body, government ministry, or think tank on energy or sustainability-related projects is desirable.

Demonstrated experience in preparing technical reports, project documentation, or monitoring outputs.

Experience in coordinating multi-stakeholder events or monitoring project performance indicators.

### 5. GBA Core Competencies

- Professionalism: Demonstrates supreme technical competence, acts with integrity, and takes immense pride in work. Handles confidential and politically sensitive matters with absolute discretion.

- **Communication:** Speaks and writes clearly and effectively; tailors language, tone, and format to match diverse, multicultural audiences; demonstrates openness in sharing information.
- **Planning & Organising:** Develops clear goals consistent with agreed strategies; identifies priority activities; foresees risks and allows for contingencies when planning.
- **Teamwork:** Works collaboratively with colleagues to achieve organisational goals; solicits inputs by genuinely valuing others' ideas and expertise; supports and acts in accordance with final group decisions.
- **Leadership & Judgement:** Serves as a role model; empowers others to translate vision into results; makes tough decisions when necessary; takes responsibility for unit's performance.

## 6. Application Process

Interested candidates who meet the stringent requirements of this position are invited to submit their complete application package to [recruitment@biofuelsalliance.com](mailto:recruitment@biofuelsalliance.com) and [careers@biofuelsalliance.com](mailto:careers@biofuelsalliance.com). A complete application must include:

1. A comprehensive Curriculum Vitae (CV) detailing relevant professional experience, educational background, and major achievements.
2. A detailed Motivation Letter (maximum two pages) explaining your suitability for the role, alignment with the GBA's mission, and specific examples of past impacts corresponding to the key responsibilities outlined in this document.
3. Contact details for at least three professional referees (referees will only be contacted for shortlisted candidates).

The GBA is an equal-opportunity employer. We actively encourage applications from qualified women and candidates from underrepresented geographical regions within the GBA membership. The recruitment process is merit-based, transparent, and conducted in strict accordance with the GBA Governance Framework. Due to the high volume of applications, only shortlisted candidates will be contacted for the next stage of the assessment process, which will include competency-based interviews and technical evaluations.
